## PERSONAL PROFILE

Computer Engineering student in my last year of career. I consider myself a very responsible and organized person, passionate about learning with experience in web development. I am currently looking for a job, where I can learn a lot and demonstrate my skills.

## PERSONAL EXPERIENCE

### FRONTEND DEVELOPER - AAXIS DIGITAL

Over a year of experience as a frontend developer, I have successfully collaborated with cross-functional teams to deliver captivating user interfaces. Proficient in HTML, CSS, and JavaScript frameworks, I have consistently contributed to the development of responsive and visually appealing web applications, ensuring seamless user experiences.

### BACKEND ECOMMERCE - CODERHOUSE

I built a RESTFUL API using Node.js and Express.js, implementing authorization with Passport Local and email sending. Other tools I used were MongoDB, Socket.io, Multer, and Cloudinary.

### ECOMMERCE PROJECT

I built a RESTFUL API using PHP, Laravel and Eloquent, for the database I used SQL and for the frontend HTML, CSS and Bootstrap. I also implemented email delivery and payments via PayPal.
